

Superstore Sales Analysis – Storytelling Dashboard

Prepared by: Badam Sri Vidya
Task 2 – Elevate Internship

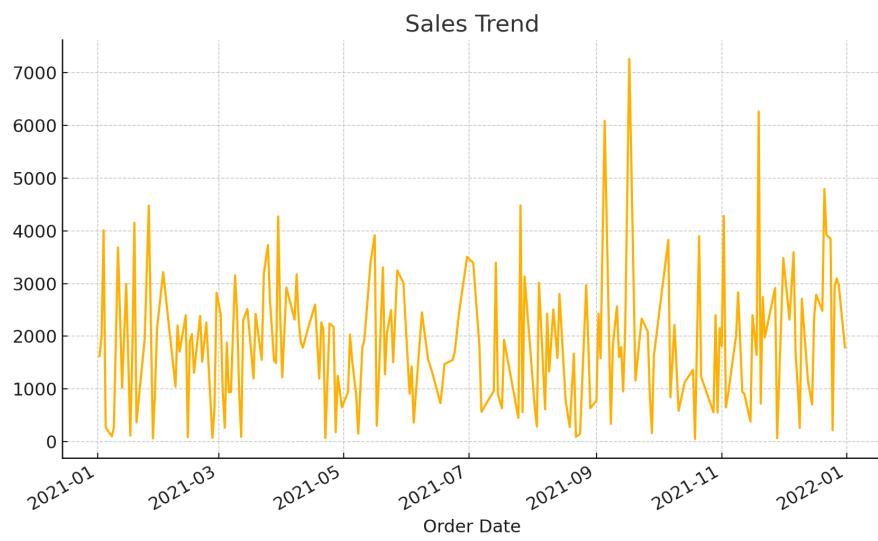

This report provides insights into sales, profit, regions, and shipping trends using Superstore dataset visualizations.

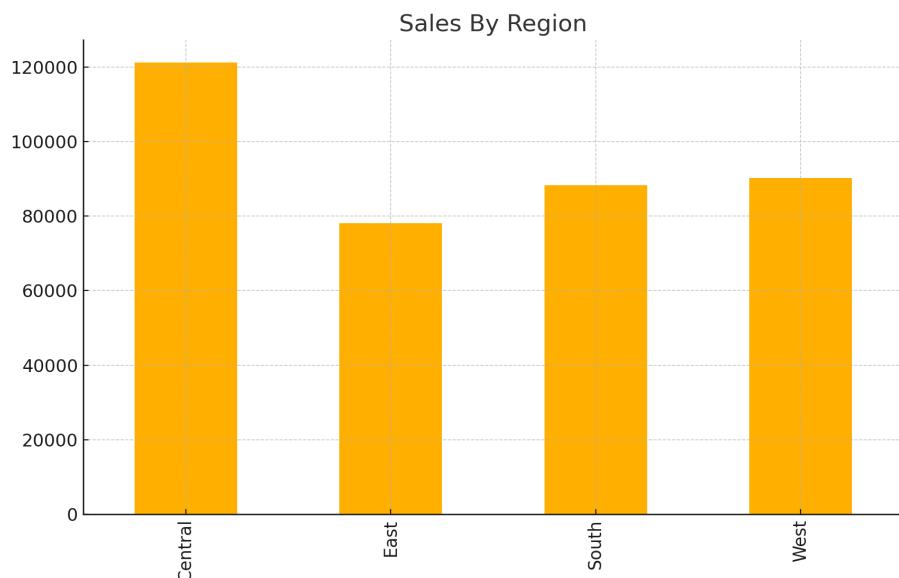

Sales by Category – Technology leads in total sales.

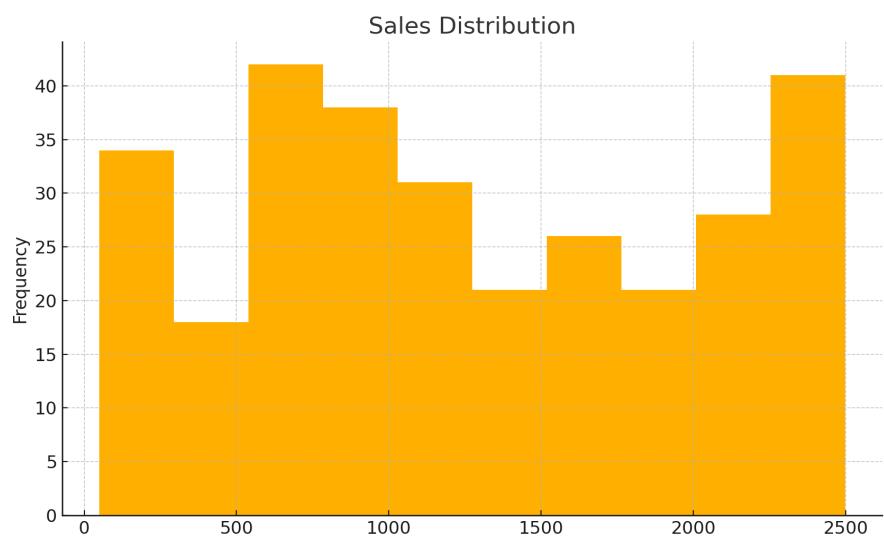

Profit by Sub-Category – Phones and Chairs show strongest profit.

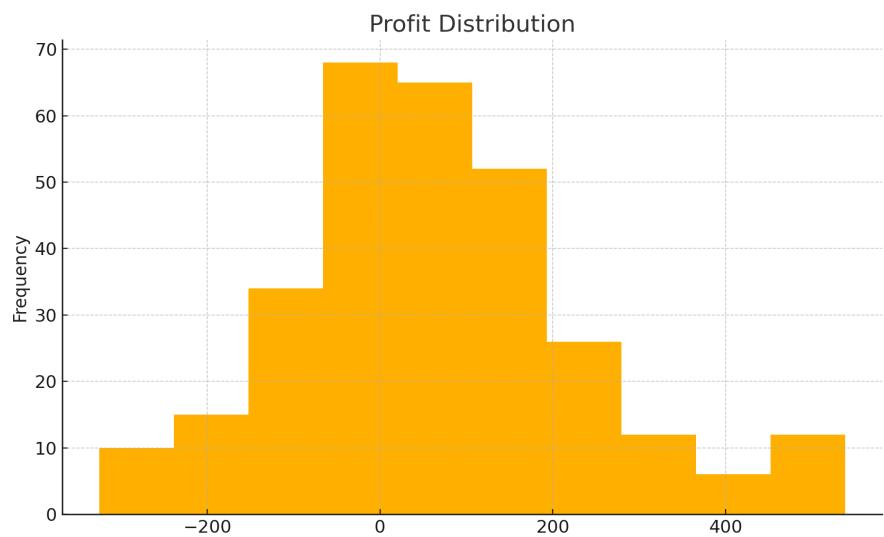

Sales Trend Over Time – Noticeable peaks in mid-year.

Sales by Region – East & West perform the best.

Sales Distribution – Majority sales occur at mid-high ranges.

Profit Distribution – Negative profits indicate discount issues.

Orders by Ship Mode – Standard Class is most used.

Final Recommendations

- Reduce discounts on low-profit subcategories.
- Improve pricing strategy for loss-making items.
- Expand marketing in East & West regions.
- Optimize Standard Class shipping to reduce costs.
- Implement category-specific promotional plans.
